

Ahead of the Curve: See What's New for the Season at Design Within Reach

Rediscover classics reimagined for today and celebrate exclusive new designs destined to become the classics of tomorrow.

The optimism of summer is here, and we're continuing to celebrate softer, rounded shapes and curves in everything from furniture to rugs. Whether it be Kristina Dam's [Curved Tables](#) or eye-catching Wavy Rugs from [An Aesthetic Pursuit](#), we're excited to expand our partnerships with designers across the globe. Inventive lighting from the Spanish firm Marset, Sean Lavin's cutting-edge designs for Tech Lighting, and the Danish firm Woud are illuminating both artistic and technical innovations in our rapidly expanding assortment. From the whimsical tabletop accessories of [Paola C](#) to the geometric shapes of Pieces Planters, we're welcoming color, bolder forms, and inspiring artistry into our collections this season.
